

COCKTAIL
MASTERCLASSES

◆ COCKTAIL MASTERCLASS ◆

FORUM's Cocktail Masterclasses take place in private in the first floor bar area with dedicated mixologists. You will learn about the background of the ingredients used as well as the history of each cocktail. The mixologist will talk you through each cocktail step by step demonstrating the techniques used to create the drinks, then the fun begins

Each person will then have a go at making each of the cocktails themselves before the best bit, the drinking of your own creation. Table reservations for food after the masterclass can be made or to simply continue to explore the array of cocktails on offer at FORUM
