

COCKTAIL MASTERCLASS

COCKTAIL MASTERCLASS

FORUM's Cocktail Masterclasses take place in private in the first floor bar area with dedicated mixologists. You will learn about the detail of the ingredients used as well as the background of each cocktail. The mixologist will talk you through each cocktail step by step demonstrating the techniques used to create the drinks

Each person will then have a go at making each of the cocktails themselves before the best bit - drinking your own creations

Masterclasses can be booked for any day of the week except for Friday and Saturday evenings with 3 different packages available for 5 to 20 people

Table reservations for food after the Masterclass can be made or to simply continue to explore the array of cocktails on offer at FORUM
